Community Improvement Projects

Signpost and sign replacements have begun!

This project is improving the look and curb appeal of Laurel Park. We are aiming to complete this project by the end of 2026.

Entrance improvement project!

This project will begin soon and focus on the front and rear entrances of Laurel Park. This project includes new and updated signage as well as landscaping changes and improvements.

Street Trees

The board feels that the following specifications will help to maintain standards and continuity throughout the community.

- Install trees with a 2 inch caliber or above
- Red maple trees, sugar maple trees, willow oak trees, or zelkova serrata. The street trees throughout the community are maple trees. (Note: Please do NOT plant silver maple trees)
- Provide continued maintenance of street trees including watering, mulching around trees, treatments, and pruning of the trees.

Call 811 Before You Dig to prevent underground utility damage. This service is free! You must allow three full working days for this to be completed and dig within 28 days of completion.

Clubhouse Rentals

The Clubhouse is a great place to host your holiday events. The clubhouse is available for Laurel Park Homeowners to lease. The holiday season is busy so please get your applications in to secure your date!

City of Concord Loose Leaf Collection

The City of Concord will start Loose Leaf Collection soon. Please look for their schedule to come out or for updates on their website.

Place your loose leaves at the curb for the city to collect with a vacuum truck.

Leaves can still be placed in paper bags for collection on trash days.

Lets work together to make our community look nice!

Below is a list of important items that everyone can do to help our community look great.

- Make sure your trash cans are brought in after collection and store them where they are not easily visible from the street.
- Clean mold and mildew from houses and fences.
- Paint, repair or replace your mailbox, mailbox post and or numbers as needed.
- Replace dead or dying street trees.
- Remove weeds from your Lawns and tree/plant beds.
- Mow lawns regularly to keep them looking nice.
- Plant grass seed in bare spots within your lawn.
- Replace or replenish pine needles and mulch.
- Trim trees and bushes as needed.

Please do not use the dumpster

The dumpster located at the tennis courts is a private dumpster for the Landscaper, Pool, and Clubhouse. **This dumpster is not for household use or bulk items.**

Concord does offer bulk pickups each week along with your trash pickup.

Please utilize this FREE service!
